Veterinary clinic cleaning: what we clean

Walk the hospital with your practice manager and set a frequency for each room.

Clinic _____ **Address** _____

Walked by _____ **Date** _____

Client lobby

- [ ] Entry glass, bottom panes first
- [ ] Benches and chair legs
- [ ] Check-in counter and card reader
- [ ] Retail shelves dusted
- [ ] Walk-on scale scrubbed and dried
- [ ] Hair vacuumed from baseboards and under seating
- [ ] Accident spots treated before mopping
- [ ] Client restroom cleaned and restocked

Exam, treatment and surgery rooms

- [ ] Rooms in the order your protocol sets
- [ ] Exam tables, counters and cabinet fronts
- [ ] Door handles, light switches and floors
- [ ] EPA-registered products held for label dwell time
- [ ] Terminal clean for one room, when booked

Wards and boarding rooms

- [ ] Floors, walls to hand height and drains
- [ ] Door hardware and sinks
- [ ] Food prep counters
- [ ] Kennel doors kept closed
- [ ] Rooms done when the technician says they are ready

Laundry, food storage and grooming

- [ ] Floors swept and mopped
- [ ] Tub surround and nearby walls wiped
- [ ] Hair and lint cleared around the washer and dryer

Offices and staff rooms

- [ ] Client records and monitors left untouched
- [ ] Carpeted offices extracted
- [ ] Staff lounge carpet extracted

Floors

- [ ] Vinyl tile stripped and refinished on your schedule
- [ ] Sealed concrete in kennel rooms scrubbed
- [ ] Work done in sections to keep a dry path

Notes
